Safeline Speedsafe Cut-Resistant Gloves

sharp subjects, broken glass panes and sharp metal plates are the daily routine for the fire departments and emergency rescue services.

In the field there is a imminence hazard to harm oneself. You cannot help other people, if you has been wounded to.

Speedsafe-gloves are cut-resistant gloves with the highest cut level. The cutting-gloves are manufactured with hard -wearing special yarns combined with a new knitting technology. So we are able to reach the level "Cut 5". This is the highest level you can achieve.

Speedsafe give you protection against any cutting injuries. We guarantee also a high class wearing-comfort and also a good sensitive faculty.

Speedsafe cut resistant- gloves are also a product for technical and medical assistance after accidents. You can feel the body vital functions without any limitations.

Speedsafe cut-resistant- gloves are breathable, washable and have a extreme high sleight of hand.

Following kind of cutting gloves we can provide:

Speedsafe with short and long cuff (35 cm), with and without special coatings.

Speedsafe L5:

coating: latex
colour: black
Size: S-XXXL / 6-11 German glove sizes

safety grip, high durability, skid proof, resistance against leach, acid and saturated fat.

You can cover a one- way latex- or nitril glove on our Speedsafe gloves. So you have a 100 % protection against infections and bacterial diseases. Because the combination between the two kind of gloves, cutting and wetness protection, will give you the safety at work.

Speedsafe N5:

coating: nitril
colour: black
Size: S-XXXL / 6-11 German glove sizes

hard-wearing, sensitive feeling, resistance against leach, acid and saturated fat.

You can cover a one- way latex- or nitril glove on our Speedsafe gloves. So you have a 100 % protection against infections and bacterial diseases. Because the combination between the two kind of gloves, cutting and wetness protection, will give you the safety at work.

Speedsafe U5:

coating: no coated
colour: grey
Size: S-XXXL / 6-11 German glove sizes

This model is no coated, so you can wear this glove under a normal working and also under a one-way latex or nitril glove.

You can cover a one- way latex- or nitril glove on our Speedsafe gloves. So you have a 100 % protection against infections and bacterial diseases. Because the combination between the two kind of gloves, cutting and wetness protection, will give you the safety at work.

Speedsafe P5:

coating: polyurethane
colour: grey

Size: S-XXXL / 6-11 German glove sizes

no silicon, limited chemical stable against leach, acid and saturated fat.

You can cover a one- way latex- or nitril glove on our Speedsafe gloves. So you have a 100 % protection against infections and bacterial diseases. Because the combination between the two kind of gloves, cutting and wetness protection, will give you the safety at work.

Speedsafe L5:

coating: nitril
colour: black

Size: M-XXL / 7-10 German glove sizes

safety grip, high durability, skid proof, resistance against leach, acid and saturated fat.

You can cover a one- way latex- or nitril glove on our Speedsafe gloves. So you have a 100 % protection against infections and bacterial diseases. Because the combination between the two kind of gloves, cutting and wetness protection, will give you the safety at work.
